

October 2025 Business Savings Promotion

Campaign rules for the October business savings program — the dated record every desk answer about the October window quotes.

Presented by: Jess Whitfield · Campaign Manager, Deposit Products

Approved: Priya Raman · Deposit Products lead — October 8, 2025 · Document SAV-PROMO-OCT-2025 · v1.0

Document control: campaign windows carry their own dates; the program page in effect on the contact date governs.

The window & measurement

THE WINDOW

The October 2025 business savings account promotion is active from 10/12/2025 to 11/12/2025.

MEASUREMENT

Weekly volume check-ins run each Thursday of the window; program objectives and mix tracking sit with Campaign Analytics and fold into the Q4 readout series.

The program runs its published window and then stops. Any change to the dates would ship as a new dated final deck.

Recommendation ordering

FIRST PRIORITY

During the October 2025 promotion, when recommending business savings accounts and multiple accounts meet all of the customer's stated requirements, Gold Plus Saver is the first-priority recommendation when Gold Plus Saver itself meets all of the customer's stated requirements.

SECOND PRIORITY

During the October 2025 promotion, Silver Plus Saver is the second-priority recommendation: it ranks after a qualifying Gold Plus Saver when both qualify, and it is preferred over other qualifying business savings accounts when Gold Plus Saver does not meet the customer's stated requirements and Silver Plus Saver does.

The sequence reads top-down: Gold Plus Saver first, then Silver Plus Saver.

Everything else & the guardrail

ALL OTHER ACCOUNTS

During the October 2025 promotion, all other qualifying business savings accounts may be recommended only if neither Gold Plus Saver nor Silver Plus Saver meets the customer's requirements.

THE GUARDRAIL

During the October 2025 promotion, the recommended account must still meet all of the customer's stated requirements, and the agent must not recommend a promotional account if it does not satisfy the customer's needs.

The ordering never outranks the customer's stated requirements.
