- 02 Campaign window and eligibility
- 03 The six-month clock
- 04 Where servicing guidance lives
- 05 Projections and launch logistics

THE OFFER

One sentence

New Business Silver Rewards Card customers can earn 2x cash back on all purchases for the offer's 6-month earning window.

This is the customer-facing promise. Every mechanic on the following pages exists to keep this sentence true without exception handling in the contact center.

CAMPAIGN WINDOW

Promo period and eligibility

Eligibility is set by the opening date: the customer must open their Business Silver Rewards Card account during the promotional period to qualify.

THE SIX-MONTH CLOCK

When the double window runs

Where each customer's 6-month window is anchored is set by the campaign ops addendum reviewed at the November campaign sync — quote the addendum, not this slide, when a customer asks for dates.

Worked date examples

Maintained in the addendum's anchoring section, alongside the sync decisions — never recomputed at the desk.

Late-window opening

The addendum's most-asked case. Read its anchoring section before promising anyone dates.

SERVICING

Where servicing guidance lives

This deck defines the offer, the campaign window, and eligibility. The six-month clock's anchoring lives in the campaign ops addendum, and the deck is deliberately silent on day-to-day servicing questions.

Rate walkthroughs for the contact center, exclusions handling during the promotion, and the enrollment and crediting mechanics are maintained by Support Enablement in the contact-center briefing pack, distributed at launch and updated as program decisions land in the campaign decision threads. Quote those materials, not this page, when answering agents.

PLANNING VIEW — NOT TERMS

Projections
