Contact-center themes, Q1

Theme volumes are tracking data. The answers themselves live in the contact-center briefing (v1.2) and the campaign decision threads; enablement confirms the scripts held up — no re-decisions requested this quarter.

Watch items

Hardware/electronics coding disputes

Dispute volume tied to category coding at large hardware/electronics merchants keeps climbing quarter over quarter. Rewards Operations is watching the trend; any policy question that falls out of it belongs to the product pages, not this readout.

Expense-platform confusion

Businesses routing travel through corporate expense platforms remain the top coding-question driver. Marketing is reviewing page copy placement with the web team.

Late-window openings

Accounts opened near campaign end carry doubled earning into 2026 on their own clocks — flagged to Finance for accrual modeling, no servicing change.

Next steps

2025-05

Finance refresh of the cost model with Q1 actuals; no change requested to campaign terms.

2025-06

Enablement mid-year review of the briefing pack; pointer hygiene check against the decision threads.

2025-09

Wind-down planning starts: comms calendar for the 2025-11 campaign close, drafted by Marketing with Product review.

Readout circulated to the campaign working group 2025-04-14; questions to the program owner.
