

CONTROLLED-DOCUMENTS REGISTER

Retention and card-servicing surfaces | November refresh | Published 2025-11-12

Compiled by the Card Products Documentation Office (M. Vega)

One row per surface: the surface, where it prints from, and the owning desk.

The register points - it does not restate. Change requests ride the document-control queue.

ROW	SURFACE AND WHERE IT PRINTS FROM	OWNER
R-01	Standing servicing rules: Closure & Retention Runbook RB-CR-114 (2025-10-06), library serving copy.	Retention Operations
R-02	Call sequencing, gates, and branches: desk boards RET-OPS-301 through RET-OPS-304, library files, dated title blocks.	Retention Operations
