

CAMPAIGN PITCH

First Year On Us

A first-year fee waiver to open the Business Platinum door

2025-09-30 - Prepared by Deepa Nair, Consumer & Business Cards Marketing

For the winter campaign review - decision requested: approve the window and the offer shape

WHY NOW

The card wins the demo and loses the fee line

Business Platinum is the best card in the business lineup and the hardest first yes. Owners love it across the desk right up to the fee question, and the conversation that follows is an apology instead of a close.

The fee is the flinch

Branch business desks and relationship managers tell the same story: the demo lands, the fee stalls it. Take the first-year fee off the table and the demo closes itself.

The card can carry it

Once a business runs on the card for a year - the lounge visits, the travel credits, the protections - renewing at the standard fee is a bookkeeping line, not a decision. Get them in and the card earns its keep.

THE OFFER

Waive the first-year fee for new business customers

New Business Platinum accounts opened during the campaign window pay no annual fee in year one. The standard fee resumes from year two, exactly as printed on the card's pricing sheet - this deck adds no numbers of its own.

Simple to say

One sentence at the desk, one line on the banner. Aimed at businesses new to Rho, for accounts opened during the window.

Simple to service

No rebate machinery, no points top-up to reconcile. The fee line is simply not charged in year one, and year two runs on the standard terms.

THE WINDOW

November through January

PROPOSED START

2025-11-01

Catches year-end card shopping from day one.

PROPOSED END

2026-01-31

Closes after the new-year bookkeeping reset.

Three statement cycles - long enough to catch the year-end and new-year decision moments, short enough to stay an event. We recommend approving the window as proposed.

OPEN QUESTIONS

Decisions this review can hand out

Window length ?

Is three months enough runway for businesses that open accounts in January, or should the window ride through a fourth cycle? Owner: Card Products Ops.

Eligibility line ?

New to Rho entirely, or new to business cards? The one-pager language changes with the answer. Owner: Deepa Nair, with Card Products Ops.

Upgrades mid-window ?

If an account changes products during the campaign, what happens to the waiver? Needs a written answer before servicing sees the first case. Owner: Card Products Ops.

Where the terms live ?

The business card sheet set needs a Business Platinum page before anything goes live. Owner: Documentation Office.

THE ASK

Approve the window, name the owners

October Lock the terms language and the sheet page, answer the open questions in writing.	Late October Creative, channel plan, and the servicing brief - ready for a go-live review.	2025-11-01 Launch with the business app tile, RM talking points, and the branch counter card.
--	---	--

The ask for this review: approve the window and the offer shape, and hand the open questions to their owners so October stays on schedule.
