SERVICING SIGNAL

What customers are asking

- Contact volume on the bonus is concentrated in two themes: how qualifying spend is counted, and when the bonus posts.
- Servicing enablement asked that agents read terms from the approved deck rather than paraphrasing — reiterated at the October enablement sync.
- No disclosure or complaint escalations to date; Compliance monitoring is green.

DECISIONS REQUESTED

Asks for this monthly

- Approve shifting the remaining paid-social budget toward the refreshed creative set.
- Hold branch merchandising through the end of the flight rather than tapering in November.
- No changes requested to campaign terms.
