This one-pager supports upgrade conversations at the new-accounts desk. It sets the Silver Account beside the Silver Plus Account and lists what changes when a customer moves up. Opening terms, minimums, and fees for each product print on that product's Account Opening Profile; Silver tier thresholds and tier rates are published in the Personal Deposit Rate & Fee Schedule (PDR-2025-11), section 3.

Why upgrade

More headroom on rate. Silver Plus keeps the tiered structure a Silver customer already knows, with the tier rates printed above. Balances step into Tier 2 automatically as they cross the threshold — nothing to enroll in.

Keep paper if you want it. Customers who prefer a mailed statement can have one without changing how the account earns; the statements row above prints the fee. Statement-delivery terms are set product by product across the savings line — quote each product's own profile rather than carrying one product's rule to another.

Built for accounts that get used. The monthly free-withdrawal and ATM-rebate allowances above suit customers

who touch the account week to week rather than parking a balance and walking away.

Moving up: ask at the new-accounts desk. Opening terms and minimums for Silver Plus print on AOP-SPL-02.
