

Account Opening Profile

Platinum Savings Account

Profile ref	AOP-PLT-02	Effective date	2025-11-03
Product name	Platinum Savings Account	Register node	products/personal_savings/platinum

Exported from the Product Configuration Register. Register fields print as stored; text fields print as entered.

1. OVERVIEW

The Platinum Savings Account is the relationship tier of the personal savings line, held by customers who keep substantial balances on deposit. The profile prints the register terms; relationship servicing is arranged at onboarding rather than printed here, so a Platinum opening conversation is usually shorter than the balance would suggest.

2. OPENING REQUIREMENTS

FIELD	REGISTER VALUE
Balance to maintain	\$50,000

The Platinum Savings Account requires maintaining at least \$50,000 to preserve Platinum benefits.

3. FEES & MINIMUMS

FIELD	REGISTER VALUE
Monthly maintenance fee	\$25.00
Domestic wire transfer fees	waived

If the balance dips below \$50,000, a monthly maintenance fee of \$25.00 may apply until the required balance is restored. Domestic wire transfer fees are waived for the Platinum Savings Account.

4. WITHDRAWALS & TRANSFERS

FIELD	REGISTER VALUE
Monthly withdrawal limit	-1

register legend: a monthly withdrawal limit of -1 indicates unlimited withdrawals for Platinum.

The fee waiver above applies to the domestic wire fee line itself; wire processing otherwise runs through the bank's standard channels.

5. INTEREST

The Platinum Savings Account earns 6.5% APY on the balance maintained.

6. SERVICE & GUIDANCE NOTES

1. After any large outbound movement, re-check the balance against the \$50,000 requirement before closing the interaction.
2. Service questions that need a person go through the customer's relationship contact rather than the general queue.

Rho Bank — internal reference. Account Opening Profile AOP-PLT-02 (Platinum Savings Account), effective 2025-11-03. Records custodian: Yuki Tanaka, Deposit Products Records. The Product Configuration Register is the system of record for product terms; exported profiles are not edited by hand — corrections are made in the register and re-exported.
