This one-pager supports upgrade conversations for Gold customers weighing a move to Gold Plus. The feature rows below print from the product configuration register. Opening terms, minimums, and fees for both products print on the Account Opening Profiles named above; neither is restated here.

Side by side

	Gold Savings Account	Gold Plus
APY on eligible balances <code>apy_eligible_balance</code>	As published on AOP-GLD-03.	6.0% percent on eligible balances.
Automatic investment sweep <code>investment_sweep</code>	—	Available. The sweep is designed to move surplus funds to investments when available; sweep settings print on AOP-GPL-02.
Financial reviews <code>financial_reviews</code>	—	Quarterly financial reviews with a dedicated specialist.
Support tier <code>support_tier</code>	Standard support queue.	An enhanced priority-support tier for faster routing and resolution.

Why upgrade

Less cash sitting still. When Gold Plus automatic surplus allocation is active, it reduces idle cash — funds beyond what the customer keeps on deposit can be put to work instead of parked.

A rhythm, not a one-off. Gold Plus structured quarterly check-ins help the customer fine-tune the approach as balances and plans change, rather than revisiting everything once a year.

Service that answers faster. Gold Plus provides an elevated service experience through its enhanced support level, so time-sensitive requests do not sit in the general queue.

FOR THE DESK

- Lead with the sweep for customers who keep a large working balance in savings and complain that it earns while it waits — that is the row they care about.

- The reviews are scheduled, not on-demand. Set that expectation in the first conversation so the first quarter does not open with a complaint.
- For opening minimums and the maintenance floor, open AOP-GPL-02 with the customer rather than quoting from memory.

Moving up: ask at the new-accounts desk. Opening terms for Gold Plus print on AOP-GPL-02.
