

RHO BANK

Personal Deposit Rate & Fee Schedule

Issue	PDR-2025-09	Effective date	2025-09-22
Supersedes	PDR-2025-07	Custodian	Deposit Products Records (document control)
Applies to	Personal savings and checking deposit products. Deposit APYs are variable; online and mobile banking display rates as of the current day from the pricing system. This schedule is the controlled statement of rate structures, boost and bonus rules, and qualifying pairings.		

1. Linked checking account APY boosts

When a customer holds, under the same customer profile, a checking account and a savings account in one of the pairings listed in section 1.1, a linked checking APY boost for that pairing is applied automatically to the savings account balance. If multiple active Rho-Bank checking accounts linked to the profile each provide a boost for the same savings account type, only the highest applicable checking account APY boost is applied; the other checking boosts are not added.

1.1 QUALIFYING PAIRINGS AND BOOST PERCENTAGES

Checking account	Savings account	Boost APY
Green Account	Gold Account	+0.75%
Green Fee-Free Account	Bronze Account	+0.2%
Evergreen Account	Green Account	+0.3%
Blue Account	Silver Plus Account	+0.2%
Light Green Account	Diamond Elite Account	+0.5%
Dark Green Account	Bronze Account	+0.15%
Bluest Account	Silver Account	+0.3%
Gold Years Account	Gold Plus Account	+0.4%
Light Green Account	Platinum Account	+0.35%
Green Account	Silver Account	+0.25%
Evergreen Account	Diamond Elite Account	+0.45%
Bluest Account	Bronze Account	+0.1%
Purple Account	Gold Account	+0.1%
Gold Years Account	Silver Account	+0.2%
Blue Account	Platinum Account	+0.3%
Green Fee-Free Account	Gold Plus Account	+0.25%
Blue Account	Gold Account	+0.5%

Only the pairings listed above qualify for the linked checking account APY boost. All other checking and savings combinations do not receive any APY boost from linking.

1.2 HOW BOOSTS COMBINE

- A linked checking account APY boost is additive to the savings account base APY and to any credit card APY bonuses the customer may already have.
- Checking account APY boosts do not stack with each other; only the highest applicable boost applies.
- Checking account APY boosts do stack with other types of bonuses, including credit card APY bonuses, relationship bonuses, and account tier bonuses.

EXAMPLE — MULTIPLE CHECKING ACCOUNTS

A Gold Savings Account customer holds a Green Account checking, which provides a boost of +0.75%, and a Purple Account checking, which provides a boost of +0.1%. The customer receives only the Green Account boost of +0.75%, not the sum of both.

2. Credit card APY bonuses

Holding an eligible Rho-Bank credit card provides a bonus APY on eligible savings accounts. Per-card bonus percentages are published in each savings product's documentation. When a customer holds multiple Rho-Bank credit cards that each provide an APY bonus on the savings account, only the highest applicable credit card APY bonus is applied; the other credit card bonuses are not added on top.

3. Silver Account balance tiers

Balance tier	APY
Balance of less than \$10,000	2.75%
Balance of at least \$10,000	4.25%

Silver Account customers maintaining multiple Rho-Bank products may qualify for a relationship bonus of 0.025% that stacks on top of the base Silver APY (see supplement PDS-SIL-03).

4. Base rates for non-tiered listed products

Product	Base APY
Green Account (savings)	4.0%
Gold Account (savings)	5.5%

5. Product supplements index

Product	Supplement ref	Effective
Silver Account	PDS-SIL-03	2025-09-22
Green Account (savings)	PDS-GRS-02	2025-09-22

Gold Account	PDS-GLD-04	2025-09-22
Silver Plus Account	PDS-SPL-01	2025-09-22
Gold Plus Account	PDS-GPL-01	2025-09-22
Platinum Account	PDS-PLT-02	2025-09-22
Diamond Elite Account	PDS-DIA-02	2025-09-18
